## PUBLIC SAFETY AND HOMELAND SECURITY BUREAU APPROVES RECOMMENDED NATIONWIDE CHANNELS FOR DEPLOYABLE TRUNKED SYSTEMS IN THE 700 MHZ NARROWBAND PUBLIC SAFETY BAND

## PS Docket No. 13-87 and WT Docket No. 02-378

By this *Public Notice*, the Public Safety and Homeland Security Bureau (Bureau) approves a recommended set of six channels for use nationwide by 700 MHz deployable trunked systems. This channel set was recommended by the National Public Safety Telecommunications Council and the National Regional Planning Council.<sup>1</sup>

## Former Reserve Channels

On October 17, 2014, the Commission adopted a *Report and Order* which released the twenty-four narrowband reserve channels (12.5 kHz bandwidth) to the General Use category under the administration of the 700 MHz Regional Planning Committees (RPCs) for the benefit of state and local public safety licensees.<sup>2</sup>

In its *Report and Order*, the Commission authorized the RPCs to assign up to eight 12.5 kHz former reserve channels for deployable trunked systems.<sup>3</sup> The only exception being that it directed RPCs to offer priority access to all twenty-four former reserve channels to public safety incumbents relocating from the T-Band.<sup>4</sup>

The Commission also encouraged NPSTC and the NRPC to identify a discrete set of former reserve channels to support deployable trunked systems on a nationwide basis which could be

incorporated into regional plans.<sup>5</sup> It gave NPSTC and NRPC three months from the publication of the *Report and Order* in the Federal Register (*i.e.* until March 2, 2015) to complete their recommendation.<sup>6</sup>

## NPSTC and NRPC Recommended Channels for Deployable Trunked Systems

On February 13, 2015, NPSTC and the NRPC recommended a set of six former reserve channels (12.5 kHz bandwidth) to be allocated nationwide for 700 MHz deployable systems. The NPSTC/NRPC recommended channels are listed below:

| Deployable Trunked<br>Channel | Channel Number | 12.5 kHz Center<br>Frequency | Separation from Lower-<br>Adjacent Deployable<br>Trunked Channel (kHz) |
|-------------------------------|----------------|------------------------------|--|
| A                             | 37-38          | 769.23125                    | N/A  |
| В                             | 61-62          | 769.38125                    | 150  |
| С                             | 117-118        | 769.73125                    | 350  |
| D                             | 141-142        | 769.88125                    | 150  |
| Е                             | 883-884        | 774.51875 <sup>7</sup>       | 4500   |
| F                             | 939-940        | 774.86875 <sup>8</sup>       | 350  |

On March 3, the Public Safety and Homeland Security Bureau issued a *Public Notice* seeking comment on the recommended channels. On April 2, 2015, the Association of Public-Safety Communications Officials-International, Inc. filed comments urging approval of the NPSTC/NRPC recommended channels. Of the NPSTC/NRPC recommended channels.

Accordingly, we hereby approve the recommended channels as set forth above. RPCs may now incorporate these channels into their plans for deployable trunked systems provided any region with a T-Band market must give priority to these channels, in that market, to any public safety T-band incumbent seeking to relocate from the T-band.<sup>11</sup>
